CYI Capital Award Winners

CLAS II CYI Capital Award Winners S. L. De Weese (left) and L. Yarzagaray. To Mr. De Weese, alternate CYI committee member, the award came as a complete surprise.

GANADORAN di CYI Capital Award Classe II ta S. L. De Weese (robez) y L. Yarzagaray. Pa Sr. De Weese, Niembro alternado di CYI Comite, e premio a bini completamente como un sorpresa.

Yarzagaray, DeWeese A Gana Premionan di CYI

Premionan di Coin Your Ideas den Clase II - duná solamente na supervisoran - luna pasá a worde concedi na un subforeman den Carpenter & Paint Craft y na un assistant zone supervisor den Mechanical Department.

E premio mayor di Fls. 1000 a bai pa L. Yarzagaray kende a recibí Fls. 150 na 1954 pa su sugerencia di un mehor metodo di prepara mueble pa renobacion.

El a propone pa un capa di kita vernis worde aplicá ariba e superficie y cual lo worde limpiá despues cu stiem. Comision di CYI a reporta cu e proposicion a worde purbá "en extenso y despues adoptá ora a worde descubri cu no solamente e tem-

po di renobacion a worde reduci masha considerablemente, pero e metodo nobo tabata duna un superficie mas limpi a traha ariba."

Fls. 500 - e segundo premio - a bai pa S. DeWeese. Na 1954 el a recibí Fls. 200 pa su proposicion pa instala aguanta pa trays den towers. E comision a bisa cu e idea tabata spaar "considerable trabao y material," ta permiti fabricacion di antemano y ta facilita e instalacion di trays.

Ora e premionan a worde anuncia e comision a reporta cu sugerencianan den Clase II haci durante 1955 ta monta na 26 por ciento mas cu 1954 y cu 71 of 16. por ciento a worde adoptá anja pasá compará cu 55 of 14.4 por ciento durante 1954.

Diez-un Candidato Ta Drenta Eleccion Primario di LCAC

Diez-un homber lo competi pa scis candidatura ora cu e seleccion primario di LCAC worde tení April 11 - 13. Ocho ta nacional; tres ta no-nacional.

Cuatro nacional y dos no-nacional lo worde nombrá den e primario. Dos nacional y un no-nacional lo worde eligi pa periodonan di cos anja den e comité durante e eleccion general fihá pa April 18 - 20.

Candidatonan nacional den e primario lo ta:

Arendel LeGrand, junior operating clerk A den Accounting Department cu 14 anja, cinco luna di servicio.

A. M. Arends, electricista A den Electrical Craft cu 16 anja, 11 luna di servicio.

R. M. Arends, un klerk den Accounting Department cu cuatro anja, e.o. luna di servicio.

R. E. Polak, un cost record clerk A den Accounting Department cu 14 anja, 10 luna di servicio.

Augusto Kelly, un assistant operator den Process - Cracking cu 19 anja, seis luna di servicio.

C. Z. de Cuba, un instructor A den Lago Vocational School cu cuatro anja, cuatro una di servicio.

J. C. Falconi, un levelman (temporario) den Process - Catalytic y Light Ends cu nueve anja, siete luna di servicio.

Herman Croes, un personnel records clerk II na Mechanical-Administration cu 10 anja, cinco luna di servicio.

Candidatonan no-nacional den e primario lo ta:

P. J. Gopic, un operations clerk B den Accounting Department cu 12 anja, siete luna di servicio.

Edmund Fung-A-Fat, un operations clerk A den Accounting Department cu 12 anja, 10 luna di servicio.

Lago Comes In Second In 1955 Safety Contest

Congratulations

TO: All Lago Employees
FROM: J. J. Horigan

When 1955 began you set yourselves a well-nigh impossible task - to work more safely than you had in 1954. You made that year the safest in Lago's history and Lago the safest major refinery in the world.

The 1955 safety report showed you just missed your mark, but 1955 was the second safest year in the company's history and Lago finished second in the international safety contest it won the previous year.

That you fell short of your goal is not as important as the fact that you did your best. Without your ever-present desire to work safely the most ambitious accident prevention program would have been futile.

But this desire, coupled with guidance from the Safety Division and company supervisors, enabled you to score an outstanding accomplishment.

I would like to extend my heartiest congratulations, though no words of praise can equal your personal satisfaction in a job done well and safely.

We are now well into 1956. Once again you are striving to better your safety achievements of previous years. You have given proof you stand a good chance of doing it. I wish you the very best of luck and assure you Lago will do everything in its power to help you achieve your goal.

J. J. Horigan

Sets New Low In Injuries; Lion Oil Wins

Lago beat out 17 other refineries to take second place in the National Safety Council's 1955 petroleum manufacturing safety contest. First place went to the Lion Oil Co. of El Dorado, Ark.

Competing in the "entire companies" division of the Petroleum Section - Manufacturing contest, Lago wound up 1955 with a frequency rate of .96. Lion Oil's rate was .56. The 19 refineries entered in the contest work a minimum of 250,000 manhours per month and are among the largest in the world.

Lago won the contest in 1954 with a frequency rate of .87. Though its '55 rate was higher, the company set a new low last year in industrial injuries - 9.92 per 1000 employees. The previous low - 12.67 - was established in 1954.

Lago employees suffered 14 disabling injuries during 1955, the same number as 1954, but reduced the number of restricted duty cases by 26. Restricted duty cases in 1954 totaled 160.

Lago employees earned one Award of Honor from the council for working more than 3,000,000 consecutive manhours without a disabling injury and worked three periods of more than 1,000,000 consecutive injury-free manhours.

In third place in the contest was the Humble Oil and Refining Co. refinery at Houston, Texas, with a frequency rate of 1.16. The frequency rate on which the contest is decided represents the number of lost-time injuries per million manhours worked.

The average frequency rate for the refineries in the contest was 3.20 with the highest 11.47. The refineries are located in the United States, Canada, British West Indies and Aruba.

Creole Petroleum Co.'s Caripito and Amuay refineries finished fourth and 18th respectively in the "individual plants" division of refineries operating 250,000 or more manhours monthly. Caripito's frequency rate was 1.27; Amuay's 6.26.

Lion Oil A Gana Promer Lugar

Lago A Captura Segunda Lugar pa su Seguridad

Lago a bati 17 otro refinaria y a captura di segunda lugar den e concurso di seguridad pa fabricacion di petroleo di National Safety Council pa 1955. Promer lugar a bai pa Lion Oil Co. di El Dorado, Ark.

Compitiendo den e division "entire companies" di Petroleum Section - Manufacturing contest, Lago a caba 1955 cu un frecuencia di .96. E frecuencia di Lion Oil tabata .56.

E 19 refinarianan participando den e concurso ta traha un promedio di 250,000 manhours pa luna y ta entre esnan mas grandi na mundo. Lago a gana e concurso na 1954 cu un frecuencia di .7. Maske su frecuencia pa '55 tabata mas halto, compania tabatin menos desgracia industrial anja pasá - 9.92 pa 1000 empleadonan. E cifra anteriormente mas abao - 12.67 - a worde estableci na 1954.

Empleadonan di Lago a sufrí 14 desgracia incapacitante durante 1955, mes tanto cu na 1954, pero a reduci e cantidad di casonan di perdida di tempo for di trabao cu 26. E casonan aki tabata suma 160 na 1954.

Empleadonan di Lago a gana un Award of Honor for di e council pa trahamento di mas cu 3,000,000 manhours consecutivo sin un desgracia incapacitante y a traha tres periodo di mas cu 1,000,000 manhours consecutivo, sin desgracia.

Den tercer lugar den e concurso tabata Humble Oil & Refining Co. na Houston, Texas, cu un frecuencia

di 1.16. E frecuencia ariba cual e concurso ta worde decidi ta representa e cantidad di desgracianan cu perdida di tempo pa milion manhours trahá.

E frecuencia promedio pa refinarianan den e concurso tabata 3.20 cu esun di mas halto siendo 11.47. E refinarianan ta estableci den Estados Unidos, Canada, British West India y Aruba.

Pa Bien

NA: Tur Empleadonan di Lago
DI: J. J. Horigan

Tempo 1955 a principia boso a tuma pa boso mes un tarea casi imposible - pa traha cu mas seguridad cu boso a haci na 1954. Boso a haci e anja ey esun di mas seguro den historia di Lago y e refinaria grandi di mas seguro den mundo.

E informe di seguridad pa 1955 ta nunstra cu e destino ey no a logra, pero 1955 tabata e segunda anja mas seguro den historia di compania y Lago a caba segunda den e concurso internacional di seguridad cu el a gana e anja anterior.

Cu boso no a logra e destino no ta asina importante manera e hecho cu boso a haci boso best. Sin boso continuo deseo pa traha cu seguridad e programa di prevencion di desgracia mas progresivo lo no tin exito.

Pero e deseo aki, hunto cu guia for di Safety Division y supervisoran di compania, a capacita boso pa obtene un acomplimento sobresaliente.

Mi ta desea di extende mi mas sincero felicitacion, maske palabranan di elogio no por iguala boso satisfaccion personal den un trabao bon haci y cu seguridad.

Awor ya nos ta leuw den 1956. Un vez mas boso ta luchando pa mehora boso acomplimentenan di anjanan anterior ariba terreno di seguridad. Boso a duna prueba cu boso tin un bon chens pa hacie'le. Mi ta desea boso lo mehor exito y asegura boso cu Lago lo haci tur cos den su poder pa yuda boso alcanza boso destino.

J. J. Horigan

Sport Park Issues Olympiad Reminder

The Lago Sport Park Board issued a reminder this week that entry blanks for the 16th annual Queen's Birthday Olympiad must be returned to the board not later than April 14. The Olympiad will be held at the sport park April 28, starting at 6:30 p.m.

Entry blanks may be obtained from members of the board or at the park.

It's Not Worth the Risk!

Now matter how you look at it, it's not worth it. That is, losing your job over the theft of Lago equipment. That's right, you can lose your job and everything you have built up in that job over the years for the theft of anything that belongs to Lago.

And, lest it be forgotten, discharge can be automatic. Theft of company property is a posted offense.

Theft of company supplies and equipment has increased at what has been called an "alarming" rate. Because of this increase, disciplinary measures will be stiffened, controls and gate checks will be tightened and supervisors will take whatever action possible to keep company property from disappearing.

Don't get caught in the web of this increased vigilance. The only way not to fall victim is not to "steal."

Every man and woman hired by Lago is entrusted with company supplies and equipment. When Lago property is issued, the moral responsibility of correctly using and returning unused supplies of equipment lies with the employee. This same responsibility lies with the employee who, because of his position and trust the company has in him, has availability to stores of supplies and equipment.

The company has a long history of trust and faith in its employees. It chooses that way to work. Some employees are violating this trust. There are some people wearing Lago "fichas" who are taking advantage of Lago's faith in its employees by illegally removing company property from the concession for personal use or gainful resale.

While they don't seem to realize it, the scales are tipped heavily against those who think they can gain by removing company property. Regardless of what the end result of removed Lago equipment might be, it's hardly worth the risk.....because you're risking YOUR JOB!

Against the questionable "gain" that can come from selling or using stolen Lago property is placed a Lago career. A career that means security, benefits, wages can be forfeited immediately by stealing any of one of a thousand items Lago daily entrusts to its employees. It's hardly worth it.

The irresponsible employees stealing Lago property are committing more than just an offense: by association they are damaging the high opinion Lago management holds for its employee body. These misdemeanors will also cause the entire employee body inconvenience in such areas as stepped-up controls and checks at the gates. The un-Christianlike act of stealing born of selfish interests affects the entire Lago employee group.

Don't take the risk. Stolen property is an invitation to disaster - disaster that can begin with the loss of a Lago job.

No Vale la Pena e Risiko!

No importa com bo mire'le, no vale la pena. Esey ta, perde bo trahao door di horta cos di Lago. Esey ta berdad, bo por perde bo trabao y tur loke bo a adquiri den e trabao ey door di anjanan pa moti di hortamento di cualkier cos cu ta propiedad di Lago.

Y, no mester worde lubidá, e kitamento por ta automatico. Ladronia di propiedad di compania ta un ofensa apostá.

Ladronia di cosnan di compania a aumenta na loke a worde yamá un paso "alarmente." Pa motibo di e aumento aki, medidanan disciplinario lo worde haci mas severo, controlamente y checkmento na porta ta tuma lugar mas frecuente y supervisoran lo tuma tur accion posible pa preveni propiedad di compania di desaparece.

Mira pa bo no worde cogi door di e vigilancia aumentá aki. E unico manera pa bo no cai como victima ta di no "horta."

Cada homber y muher empleá door di Lago ta worde confiá cu propiedad di compania. Ora propiedad di compania ta worde expedi, e responsabilidad moral di usa corectamente y pa debilbe cosnan cu no worde usá ta keda cu e empleado. E mes responsabilidad aki ta keda cu e empleado kende, pa motibo di su posicion y confianza cu compania tin den dje, tin disponibilidad di propiedad di compania.

Compania tin un historia largo di confianza y fe den su empleadonan. E ta gusta e moda di traha aki. Algun empleado ta viola e confianza aki. Tin algun hende cu ta bisti "fichanan" di Lago cu ta abusa di Lago su confianza den su empleadonan door di saca ilegalmente propiedad di compania for di ariba concesion pa uso personal of pa bende.

Mientras aparentemente nan no ta realiza, e chensnan ta grandemente contra esnan cu ta kere cu nan por beneficia door di saca propiedad di compania. Irrespecto kiko e resultado final di propiedad di Lago cu worde sacá por ta, casi e no vale la pena e risiko... pasobra bo ta riskando BO TRABAO!

Contra e "ganashi" dudoso cu por bini for di bende of usa propiedad hortá di Lago tin un carera na Lago. Un carera cu ta nifica seguridad, beneficcionan, sueldo por worde terminá mes ora door di horta un di e miles di cosnan cu tur dia Lago ta confia su empleadonan cu ne. No vale la pena.

E empleadonan irresponsable cu ta horta propiedad di Lago ta cometiendo mas cu un ofensa: door di asociacion nan ta causa danjo na e opinion halto cu directiva di Lago tin di su cuerpo di empleadonan. E malpracticacionnan tambe lo causa inconveniencia na henter e cuerpo di empleadonan door di mas control y check na portanan. E acto in-Cristian di hortamento cual ta nace door di interes egoista ta afecta henter e grupo di empleadonan di Lago.

No tuma e risiko. Propiedad hortá ta un invitacion pa desastre - desastre cu por cuminsa cu perdemento di un trahao cu Lago.

Eleven Candidates in LCAC Race; Elections To Be Held April 11-13

Eleven men will be competing for six ballot spots when the Lago Commissary Advisory Committee primary election is conducted April 11-13. Eight are nationals; three are non-nationals.

TSD-Lab. 1

A. Ras Fls. 25

He proposed that a coat of varnish remover be applied to the surface which would then be cleaned with steam. The CYI Committee reported the proposal was "given a thorough trial and then adopted when it was found that not only was the time to refinish cut very considerably but the new method gave much cleaner surfaces to work on."

Fls. 500 - the second award - went to S. DeWeese. In 1954 he received Fls. 200 for proposing that tray supports be installed in towers. The committee said the idea saved "considerable labor and material," allowed prior fabrication and eased the installation of trays.

The committee reported at the time the awards were made that Class II suggestions submitted during 1955 were up 26 per cent over 1954 and that 71 or 16. per cent were adopted last year compared to 55 or 14.4 per cent during 1954.

Esso Dining Hall Razed for Roadway

Towering cranes and grunting bulldozers teamed up last month to raze the old Esso Dining Hall and prepare the way for a new parking lot and roadway.

Replaced by a new dining hall opposite the post office, the sprawling wooden structure with its auxiliary storage sheds, cooks' quarters and other auxiliary buildings was torn down, carted away and burned. The wood was termite-ridden and could not be salvaged.

Some of the trees were saved, however, and a palm turned up in front of the Employee Medical Center (lower right photo).

In the four photos above cranes can be seen razing dining hall, a bulldozer winches as yet untouched part of the hall, a crane loads part of wall aboard a truck and graders ready the cleared site for paving.

A new road to by-pass Lago Colony will run up the hill between the bachelor quarters toward the distant tanks, turn right and connect with 10th. Ave. which leads toward the Sea Grape Gate. The new parking area will serve the General Office Building and eastern end of the refinery.

The dining hall was built in 1929 to feed bachelor employees and refinery visitors.

Dining Hall Rebahá Pa Traha Camina

Gruanau manera torre y bulldozers grunjando a uni nan forza luna pasá pa rebaha Esso Dining Hall biew y prepara lugar pa un espacio nobo di para auto y camina.

Reemplazá door di un diuing ball nobo en frente oficina postal, e structura grandi di madera cu su cuartonan di storaje, cuartonan pa kokki y otro anexionan a worde bahá abao, libá for di e sitio y kimá. E madera tabata yen di vruminga blanco y no por worde salvá.

Algun di e matanan, sinembargo, a worde scapá y un palma a worde transplantá pa dilanti di Employee Medical Center (foto mas abao banda drechi).

Den e cuatro fotonan ariba gruanau por worde mirá rebahando anexionan tras di e diuing hall ainda intacto, un bulldozer ta hala abao un seccion di e hall, un grua ta carga parti di e muraya abordo di un truck y graders ta prepara e sitio pa asfaltamento.

Un camina nobo cu ta pasa den Lago Colony lo subi e territo entre bachelor quarters den direccion di e tankinan, bira banda drechi y conecta cu 10th. Ave. cu ta bai pa Sea Grape Gate. E espacio nobo di para auto lo sirbi pa Oficina Mayor.

Stage Show, Banquet, Fair

Colony Scouts Engage In Stepped-Up Activities

In quick succession the boys and girls belonging to the various groups of the Lago Colony scout movement ripped off three major activities last month. The entire girl scout group - Brownies, Girl Scouts, Mariners and Senior Girl Scouts - started off the public projects with a stage show in commemoration of the 25th year of scouting in Lago Colony.

Next came the annual Cub Scout Fair. It was held at the Junior Esso Club March 15. The third big event for the little ladies as well as the older ones was the Mother and Daughter Banquet March 23. Held at the Esso Club, it was for the mothers of all members of the girl scouts.

Perhaps the largest and most impressive of all the affairs was the celebration of 25 years of girl scouting through the medium of the stage. More than 150 girls, all of whom comprise the various girl scout organizations in Lago Colony, performed a stage spectacle that was of credit to the youngsters as well as the adult leaders and directors who helped create and mold the finished production. The program included song selections by all the young ladies, skits, dances and the presentation of a cake with 25 electric candles.

The large cake, the work of Mr. and Mrs. E. B. Fields and Van Kilpatrick, had its 25 candles individually lighted by Brownies, all dressed in garbs of comparable-aged girls belonging to the scout movement in all parts of the world. The world-wide girl scout movement was started by Juliette Low in 1912. It was started in Lago Colony by Mrs. Paul (Juliette) Walker in 1930.

The Cub Scout Fair had its usual number of games of skill, some of chance. The chance, however, depended solely upon the participating youngsters exactness of eye, movement of arm. One way or the other, a number of the youngsters managed to win packages of candy, gum and prizes conducive to the sweet tooth of the average Cub Scout.

The final affair was the Mother and Daughter Banquet. Guest of honor was Mrs. Ruth Kilpatrick, who was honored for her 11 years of leadership in girl scout activities. Among the invited guests were Mrs. L. C. Kwartz, chairman of the girl scout committee in Oranjestad, Mrs. K. P. Braat, district commissioner of girl scouts in Oranjestad, Miss Flora Brook, district commissioner of girl scouts in San Nicolas, and Mrs. C. E. Pipe, guest speaker.

MEMBERS of the Lago Colony girl scout movement dressed in their various uniforms and the garb of other girl scouts around the world form a semi-circle around the large cake with 25 candles commemorating 25 years of Colony girl scouting.

MIEMBROAN di Lago Colony Girl Scouts bisti den nan varios uniform y traje di otro padvindernan femuina den henter mundo ta forma un mitar circulo rond di e bolo grandi cu 25 bela conmemorando 25 anja di movesion di padvinder den Lago.

GIRL SCOUTS, Brownies and Mariners had their mothers as their guests at the Mother and Daughter Banquet March 23. Dinner was served buffet style (right); the tables were set up on the Esso Club patio (above).

PADVINDERAN mucha muher, Brownies y Explorers a invita nan mama como nan huesped na e Mother and Daughter Banquet Maart 23. Cuminda a worde sirbi den estilo di buffet (banda drechi); e mesman a worde poni ariba patio di Esso Club (ariba).

AND it tastes pretty good, too!
Y e ta smaak bon tambe!

AN ACTIVE member of the Cub Scout movement takes an active part in the Cub Scout Fair March 15. Their brothers and sisters also attended.

UN MIEMBRO activo di movesion di padvinder ta suma un parti activo den e Cub Scout Fair Maart 15. Nan rumannan homber y muher tambe a atende

LET'S see, what can I do now.
LAGA nos mira, kiko mi por haci awor.

Padvindernan den Colony A Observa 25 Anja di Existencia cu Tres Evento

Den rapido sucesion e mucha homber y mucha muhernan perteneciendo na e varios gruponan di e movesion di padvinder den Lago Colony a organiza tres actividad luna pasi. Henter e grupo di mucha muhernan padvinder - Brownies, Girl Scouts, Mariners y Senior Girl Scouts - a cuminsa e proyectonan publico cu un comedia en conmemoracion di un cuarto siglo di movesion di padvinder den Lago Colony.

Despues a bini e Cub Scout Fair anual. El a worde teni na Junior

Esso Club Maart 15. E tercer evento grandi pa e damanan chikito y esnan mas grandi tabata e Mother and Daughter Banquet Maart 23. Teni na Esso Club, e tabata pa mamanan di tur miembronan di padvindernan mucha muher.

Podise e mas grandi y mas impresionante di tur tabata e celebracion di 25 anja di movesion di padvinder den Lago Colony. Mas cu 150 mucha muher di tur e gruponan a hunga un comedia cu ta merece credito tanto na e hobennan como na e

hobennan adulto y directornan cu a yuda crea y forma e producto cla. E programa tabata inclui seleccionnan di cantica door di tur damanan, parodie, baile, y presentacion di un bolo cu 25 bela electrico.

E bolo grandi, e obra di Sr. y Sra. E. B. Fields y Van Kilpatrick, su 25 belanan a worde cendi cada uno door di un Brownie, tur bisti den costum di mucha muhernan di edad comparable den padvinderij den tur parti di mundo. Padvinderij pa mucha muher ariba base mundial a cu-

minza na 1912 door di Juliette Low. El a cuminsa den Lago Colony door di Sra. Paul (Juliette) Walker na 1930.

E Cub Scout Fair tabatin su cantidad di costumber di weganan di mente, algun di chens. E chens, siembargo, tabata depende unicamente ariba skerpi di vista y movicion exacto di brazo di e mucha cu ta participa. Como sea, algun di e hobennan a logra gana paki di cos dushi, bals y otro premionan.

E ultimo evento tabata e Mother

and Daughter Banquet. Huesped di honor tabata Sra. Ruth Kilpatrick. Kende a worde honra pa su 11 anja como lider di actividadnan di padvindernan mucha muher. Entre e invitadonan tabatin Sra. L. C. Kwartz, presidente di e comision di padvinder na Oranjestad, Sra. K. P. Braat, comisionista distrital di padvindernan mucha muher na Oranjestad, Sra. Flora Brook, comisionista distrital di padvindernan mucha muher na San Nicolas, y Sra. C. E. Pipe, orador di honor.

TSD, Process and IR Announce 6 Promotions

R. V. Dorwart, TSD-Engineering, Appointed Engineering Specialist

Six men from the Technical Service, Process and Industrial Relations Department were promoted April 1. Heading the list in years of service is Robert V. Dorwart of TSD - Engineering followed by Charles Henschke and

R. V. Dorwart

C. Henschke

R. F. Laurence

G. E. Robertson

Raymond F. Laurence of Process - Cracking, Jack V. Eder and Gurdon E. Robertson of Process Utilities and James E. McCutcheon of Industrial Relations.

Mr. Dorwart, with almost 20 years' service, was promoted to the new position of engineering specialist. A non-supervisory position, it involves special activities on a higher level than the position of senior engineer. He started his Lago service in October, 1937, having been previously employed by the Standard Oil Co. (N.J.) in July, 1937, as a technical student in the Mechanical Department. Still in Mechanical, he became junior engineer and subforeman second class in the pipe craft. In 1940 he transferred to TSD - Engineering as a draughtsman. He moved up in rank holding the positions of designer, group head B, senior engineer, assistant supervising engineer - Project in both TSD and Mechanical administration. The last position was the one from which he received his April 1 promotion. Mr. Henschke has over 18 1/2 years of service, all in Process - Cracking. He started as an apprentice operator in July, 1937. He later became assistant operator, operator, assistant shift foreman and shift foreman, his latest promotion.

Schwarz Named To Newly-Created TSD Position

Charles J. Schwarz has been appointed to the newly created position of assistant chief chemical engineer of the Process Division of the Technical Service Department. The appointment is effective April 9.

C. J. Schwarz

This new position has been established in order to enable the Process Division to more effectively cope with the increased demand for chemical engineering service. This increased demand results from the present and predicted extensive growth for petroleum products together with a predicted radical change in product distribution which will be required from the Lago-Creole refineries.

Mr. Schwarz has over 20 years of Lago service commencing in October, 1935. His first position was that of a technical student in the Technical Service Department. In 1939 he went to the Cracking Division as a chemical engineer I. He later became group head B - Cracking and then group head A.

The position from which Mr. Schwarz will be promoted is group head A - Process Economics and Programming. On occasion, he has acted as chief chemical engineer. He once acted in the position of assistant chief engineer and another time as director of laboratories.

Also in Process - Cracking, Mr. Laurence moved up into the position of assistant shift foreman. He is a few days shy of 12 years of service, all beginning in April, 1944 as a process helper D in Process-Cracking. He has held such positions in Cracking as fireman, houseman, levelman, assistant operator and operator. His April 1 promotion came while he held the position of operator.

Mr. Eder moved into the position of assistant shift foreman, Zone 2, in Process - Utilities. His nine years of service began in July, 1946, in the electrical craft as a subforeman. Two years later he moved over to Utilities as a system operator. He has been electrical system operator, operator and relief foreman, the position from which he was promoted.

Mr. Robertson was promoted to the position of shift foreman in Process Utilities. In his six and one-half years at Lago, he has held the positions of operator and assistant shift foreman.

Mr. McCutcheon was promoted to the position of chief job analyst in the Wage and Salary Division of the Industrial Relations Department. He has over seven and a one-half years of service.

Bernardo Croes, Empleado cu 30 Anja, Ta Retira

Bernardo E. Croes, e promer empleado pa completa 30 anja di servicio na Aruba, tin intencion pa retira April 1 despues di surpasa un broma cu el a haci e dia cu el a cumenza traha.

Sr. Croes a worde emplea Jan. 5, 1925 door di e antecesor di Lago, Pan American Petroleum Co. E dia atardi el a bai cas y a bisa su esposa, "Mi ta bai traha un 30 anja pa compania."

Jan. 5, 1955, el a atende un reunion di Comité Ehecutivo unda Presidente di Lago J. J. Horigan a present'le un boton di servicio di 30 anja cu diamante inserta. Sr. Croes a conta e comite di su broma y, admirando e feneta den su man, el a agrega, "Wel, mi a yega."

Durante su 30 anjanan, Sr. Croes tabatin ningun dia di ausencia deductible. Augustus anja pasa, sinembargo, el a cai malo y mester a keda cas. Consequentemente el ta retira cu 30 anja, siete luna y cinco dia di servicio. Naci na Aruba, el no tin intencion di bai for di e isla.

Na 1928 tempo cu Lago a worde comprá door di Standard Oil Co. (N.J.), Sr. Croes a keda reteni como un fitter den Pipe Craft. Desde e tempo el a haya siete promocion y el lo retira como un subforeman den Pipe Craft.

"Groote Beer" A Sali Por Fin Despues di Varios Contratiempos

E barco "Groote Beer," replica di un "botterboot" Holandes cual awor ta un yacht Americano cu a bishita aki luna pasá, por fin a sali ariba e siguiente etapa di su cruzada di seis luna pero no promer cu el a haye den dificultad.

E barco, trahá pa Herman Goering pero awor propiedad di Robert Johnson, un comerciante di madera y contratista na Oregon, a drenta haaf di Oranjestad Maart 12.

Despues di un bishita di cinco dia, "Groote Beer" a sali pa Curacao pero su motor a faya nitar di camina entre e dos islanan. Bao bela, e barco a regresa Aruba, Net dilanti costa zuidoost "Groote Beer" tabata na punta pa worde tumá na touw ora e "boom" a kibra. Mientras e barco tabata drecha aki e captan a tuma retiro.

Ariba 29 di Maart, drechá cu ayudo di Lago, "Groote Beer" a yega na lama bela pa Curacao. Sr. Johnson, incapez pa haya un otro captan, a sirbi como captan su mes y a drenta Curacao mas laat den dia.

MARINE MANAGER D. V. Newton's "Nine-Old-Men-Minus-Five," playing for the '56 Aruba Golf Club team championship, found on the first tee that some solicitous soul had provided scooters to get them around the course. Left to right they were H. Chippendale, B. Teagle, C. F. Smith and Mr. Newton.

MARINE MANAGER D. V. Newton su "Nieve-Homber-Bienw-Menos-Cinco," hungando pa e campeonato di team pa '56 di Aruba Golf Club, a haya ora nan bai cumenza hunga, cu cualkier hende di hon corazon a laga scooternan pa nan usa ariha veld. Di robes pa drechi nan tahata H. Chippendale, B. Teagle, C. F. Smith and Mr. Newton.

Schwarz Nombrá Pa Puesto Nobo den TSD, TSD, Process, IR Ta Anuncia 6 Promocion

Charles J. Schwarz a worde nombrá den e posicion nobo di assistant chief chemical engineer di Process Division di Technical Service Department. E nombramento ta efectivo April 9.

E posicion nobo aki a worde estableci pa encapacita Process Division pa trata mas efectivamente cu e demanda mas halto pa servicio di ingenieria quimica. E demanda mas grandi ta resulta for di e presente y crecimiento pronosticá pa futuro di productonan di petroleo hunto cu un cambio radical pronosticá den distribucion di producto cual podiser lo worde necesitá for di refinieranan di Lago-Creole.

Sr. Schwarz tin mas cu 20 anja di servicio cuminzando na October 1935. Su promer posicion tabata di un technical student den Technical Service Department. Na 1939 el a bai pa Cracking Division como un chemical engineer I. Despues el a bira group head B - Cracking y mas despues group head A.

E posicion for di cual Sr. Schwarz lo worde promovi ta group head A - Process Economics and Programming. Na algun ocasion el a yega di actua como chief chemical engineer. Un vez el a actua den posicion di assistant chief engineer y un otro biaha como director di laboratorionan.

Otro Tres Empleado Recibidor di Oloshi

E presentacion di oloshinan di oro simbolico di 25 anja di servicio na tres empleado di Mechanical Department a pone e cantidad duná te awor na 370.

Gerente General F. E. Griffin a haci e presentacion durante ceremonianan na Centro di Recepcion. E oloshinan a bai pa R. D. Osborn di Pipe Craft y S. A. Bristol y A. A. Marval di Yard Craft.

Siete homber di Technical Service, Process y Industrial Relations Department a worde promoví April 1. Na cabez di e lista den anjanan di servicio ta Robert V. Dorwart di TSD - Engineering sigui door di Charles Henschke y Raymond F. Laurence di Process - Cracking, Jack V. Eder y Gurdon E. Robertson di Process Utilities y James E. McCutcheon di Industrial Relations.

Sr. Dorwart, cu casi 29 anja di servicio, a worde promoví den e posicion nobo di engineering specialist. Un posicion no-supervisorio, e ta involbe actividadnan special ariba un nivel mas halto cu e posicion di senior engineer. El a cumenza su servicio cu Lago na October 1937 despues di worde empleá door di Standard Oil Co. (N.J.) na Juli 1937 como un technical student den Mechanical Department. Ainda den Mechanical, el a bira junior engineer y subforeman segunda clase den pipe craft. Na 1940 el a transferi pa TSD - Engineering como un pintor di mapa. El a subi den rangonan ocupando e posicionnan di designer, group head B, senior engineer, assistant supervising engineer - Project tanto den TSD como den Mechanical Administration. E ultimo posicion tabata esun for di cual el a recibí su promocion efectivo April 1.

Sr. Henschke tin mas cu 18-1/2 anja di servicio, tur den Process - Cracking. El a cumenza como un apprentice operator na Juli 1937. Despues el a bira assistant operator, operator, assistant shift foreman y shift foreman, su ultimo promocion.

Tambe den Process - Cracking, Sr. Laurence a move ariba pa ocupa e posicion di assistant shift foreman. El falta poco pa alcanza 12 anja di servicio, tur cuminzando na April 1944 como process helper D den Process - Cracking. Den Cracking el a ocupa posicionnan manera fireman, houseman, levelman, assistant operator y operator. Su promocion efectivo April 1 a tuma lugar mientras el tabata ocupa e posicion di operator.

Sr. Eder a move den e posicion di assistant shift foreman, Zone 2, den Process - Utilities. Su nuebe anja di servicio a cumenza na Juli 1949 den electrical craft como subforeman. Dos anja despues el a transferi pa Utilities como un system operator. El tabata electrical system operator, operator y relief foreman, e posicion for di cual el a worde promoví.

Sr. Robertson a worde promoví pa e posicion di shift foreman den Process - Utilities. Den su seis anja y mei na Lago, el a ocupa posicionnan di operator, assistant shift foreman.

Sr. McCutcheon a worde promoví pa e posicion di chief job analyst den Wage y Salary Division.

THESE EIGHT drawings have been christened "Flip-pits" by the Esso News because you'll have to flip to Page 6 to find the answers and you may possibly flip your lid when you do. Teen-agers, with whom they are currently popular, give them a different name. Each drawing represents a particular situation. Try to figure them out before you flip to Page 6.

40 Courses Scheduled

ATS To Open Third Night Term May 1

The Aruba Technical School is scheduled to open its third year of night classes May 1 with registration set for April 10 - 13. The courses are designed to enable a person to learn a trade or improve his trade skills.

The second year of classes wound up last month with 174 or 62 1/2 per cent of those who enrolled originally successfully completing their studies. Successful completions at the close of the first year were 64 per cent.

Basic prerequisite for enrollment is six classes of elementary school. Some courses require an ATS, MULO or Lago Vocational School diploma. Students, limited to a maximum of eight 45-minute classroom periods each week, will be restricted to courses relating to their principal field of study, to basic education courses or both.

Some 40 courses in English or Dutch will be offered ranging from basic arithmetic through carpentry, electricity, motor mechanics, metal working, process and laboratory work and pipefitting.

Lago employees whose studies meet the requirements will be eligible for the financial assistance under the company's Educational Refund Plan. A Training Division representative will be at the ATS from 6:15 to 9:15 p.m. during the enrollment period to help employees complete the Educational Refund Plan forms.

Applications for assistance under the plan should be submitted before the courses start.

One hundred and eighteen of the 174 who completed the courses last month were Lago employees.

'Groote Beer' Bids Aruba Farewell; Now in Curaçao

The "Groote Beer," replica of a Dutch "botterboot" which is now an American yacht and called here last month, finally sailed away on the next leg of its six-months cruise but not before it ran into difficulty.

The vessel, built for Herman Goering but now owned by Robert Johnson, an Oregon lumber dealer and building contractor, pulled into Oranjestad harbor March 12.

After a five-day visit, the "Groote Beer" sailed for Curaçao but its engine broke down midway between the two islands. Under sail, the vessel headed back for Aruba. Off the southeast coast the "Groote Beer" was about to be taken in tow when the boom came around suddenly and broke. While the vessel was under repair here the captain resigned.

On March 29, repaired with Lago's help, the "Groote Beer" set sail once again for Curaçao. Mr. Johnson, unable to secure another captain, served as skipper and brought the vessel to Curaçao later that day.

Canadian Naval Craft To Visit Aruba April 11-15

Two destroyer escorts of the Royal Canadian Navy will tie up in Oranjestad Harbor April 11 for a five-day visit. The sleek warships, currently on maneuvers with units of the Atlantic Fleet, are the HMCS Crescent and the HMCS Cayuga.

The two ships will arrive at 0900 (Aruba time) April 11 and depart at 1000 April 15. Both ships will be open to visitors April 13 and 14 from 1400 (2 p.m.) to 1600 (4 p.m.).

Of 366- and 378-foot lengths, the "Crescent" and the "Cayuga" are not World War II ships, but the "Cayuga" did see action in the Korean conflict. The "Crescent" is commanded by Capt. P. D. Skypor, DSC CD, RCN while the skipper of the "Cayuga" is Comdr. G. H. Davidson CD, RCN. Both ships carry a complement of 15 officers and 230 men.

Capt. Taylor is also commander of the 2nd Escort Squadron, to which both ships are attached. Following their operational visit here the ships will return to Esquimalt, British Columbia.

BG Ta Bai Ehecuta Projecto

Pronto Guyana Ingles lo cuminza gasta e equivalente di \$58 milion over di e proximo cinco anjanan ariba desaroyo social y economico. E programa di fomento a worde aprobá na fin di anja pasá door di Gobierno Ingles y Sr Patrick M. Renison, gobernador di Guyana Ingles.

E placa lo worde obteni door di prestamo ariba termino largo for di World Bank y financieronan Ingles y door di donacion y prestamo sin interes door di gobierno Ingles.

Inclui den e plan ta completacion di 130,000 acre di un proyecto di irigacion y drainage den area di Boerasirie, reconstruccion di e camina literol for di Surinam pa Georgetown, completacion di 4000 cas y extension di electricidad pa distribution pafor.

E \$58 milion ta ademas di e \$14 milion cu a worde haci disponible na 1954.

Esso Heights Now Government Property

UNDER consideration as a home for Aruba's aged is the Esso Heights housing unit pictured above. The area and buildings were turned back by Lago to the government last month. Living quarters and dormitories make up the unit.

BAO consideracion como cas pa e bieuwnan di Aruba ta e casnan di Esso Heights munstrá ariba portret p'ariba. E aerea y e edificacion a worde debolbè door di Lago na gobierno luna pasa. E unit ta consisti di lugarnan di biba y di drumi.

BG To Spend \$58 Million On Improvements

British Guiana will soon start spending the equivalent of \$58 million over the next five years on social and economic development. The improvement program was approved late last month by the British government and Sir Patrick M. Renison, governor of British Guiana.

The money will be provided by long-term loans from the World Bank and British financiers and by outright grants and interest-free loans from the British government.

Included in the plan are completion of a 130,000-acre irrigation and drainage project in the Boerasirie area, rebuilding the seacoast road from Surinam to Georgetown, completion of a 4000-unit housing program and extension of electricity to rural areas.

The \$58 million is in addition to some \$14 million made available in 1954.

34 Empleado ta Colecta Fls. 1390 Pa Ideanan

Coin Your Ideas Committee a reparti Fls. 1390 na 34 empleadonan kende nan idea a worde adoptá durante Februari. Cuatro empleado tabatin dos idea cu a worde aceptá; uno - C. F. Mapp di Light Oils Finishing - tabatin tres.

E premio mas grandi a bai pa D. Caprino di Process Utilities. El a sugeri pa awa salu y no awa dushi worde usá den un jet na Recovered Water Plant.

Fls. 120 - e segunda premio - a bai pa Z. Kelly di Storehouse kende a sugeri un metodo mas simplifica di enlista cargonan codigo. Premionan di Fls. 75 a bai pa R. C. Oduber di Marine Department y A. L. Fo

Boekhoudt, Faro To Retire

Two long-time Lago employees with a total of 53 years' service will retire in the near future. Pedrito B. Boekhoudt of Receiving and Shipping - Wharves will retire the end of this month and Isidoro Faro of the Mechanical Department - Yard will retire June 1.

Mr. Boekhoudt, with over 27 years' service, started with Lago in the very early days of '29 as a painter. He later became helper and tradesman before transferring to Receiving and Shipping. He retires as a dockman.

Mr. Faro has over 26 years' of service. Part of his employ was in the Pressure Stills, the rest in the Mechanical Department - Yard. He retires as a chamberman.

Both men are Arubans and are not planning to leave the island.

H. A. Bristol Has Retired

Harcourt A. Bristol, a Dining Hall storekeeper M, has retired with 17 years of service. Born in Demerara, B. W. I., he has resided there to make his home.

Mr. Bristol was first employed in 1938 as a utility helper A in Process - Utilities. Through 1942 he served in the Utilities Division when he transferred to Colony Service - Stewards. In 1951 he was promoted to the grade at which he retired.

Wong di Catalytic & Light Ends.

Otro premionan a worde ganá door di:

Boekhoudt, Faro Ta Retira Pronto

Dos empleado di Lago pa hopi tempo lo retira den futuro cercano. Pedrito B. Boekhoudt di Receiving & Shipping - Wharves di retira na fin di e luna aki y Isidoro Faro di Mechanical Department - Yard lo bai cu pension Juni 1.

Sr. Boekhoudt, cu mas cu 27 anja di servicio, a cuminza cu Lago den e promer dianan di 1929 como un verdo. Despues el a bira helper y tradesman promer cu el a transferi pa Receiving & Shipping. El ta retira como un dockman.

Sr. Faro tin mas cu 26 anja di servicio. Un parti di su empleo tabata den Pressure Stills, e resto den Mechanical Department - Yard. El ta retira como un chamberman.

Tur dos ta Arubiano y ta keda biba aki.

Quant Hourá pa Su Trinta Anja Di Servicio

Lesiano Quant, un corporal A den Receiving & Shipping, awor ta munstrando un feneta cu diamante cual el a recibi luna pasá despues di 30 anja di servicio na Lago.

E feneta a worde presentá door di R. C. Baum, hefe di Receiving & Shipping, na un reunion di Management- Staff Committee Feb. 22, dos dia despues di Sr. Quant a completa 30 anja di servicio.

El a cuminza traha na 1925 den loke awor ta Yard Craft y cuatro anja despues el a transferi pa Receiving & Shipping.

Sr. Quant, awor 46 anja, ta e empleado mas hoben cu ta cumpli 30 anja di servicio cu Lago. El a nace na 1909 y a worde empleado na edad di 15. Si el traha te dia el cumpli 60, e edad normal di retiro, el lo a completa 45 anja.

Flippito

Here are the situations each "flippit" represents:
Worm's eye view of an empty beer can.
Portrait of a piccolo player from inside the piccolo.
At left, a weevil. At right, the lesser of two weevils.
A trombonist playing in a phone booth.
A soldier and his dog passing an open door.
Girl with a pony tail playing a trumpet in a bubble bath.
The early bird that caught the strong worm.
Business end of a square-shooter's pistol.
